

## Intro for field trip leaders

### WELCOME

- Welcome to [FIELD TRIP NAME]
- We appreciate you attending today and supporting the Natural Resources Foundation of Wisconsin;
- A conservation non-profit organization with a mission to care for Wisconsin's lands, waters and wildlife, and to connect people to nature.
  
- The Foundation does more than just Field Trips.
- Since **1986**, NRF has also given back **over \$8 million in conservation grants** to support everything from State Parks and State Natural Areas, to environmental education, and recovering threatened wildlife.
  
- All of this work is funded by members like you.
- Many of you have been members for years, others have received new memberships with your field trip registration. We thank you for your support.
  
- The Natural Resources Foundation and we at [YOUR ORG/BUSINESS] appreciate your joining this field trip.

### HEALTH REMINDERS

- For your health and safety, we ask that people from different households remain 6 feet apart. It's human nature to want to get close, but let's try to be self-aware.
- We are all friends here, and gentle reminders to one another about social distancing are fine during the trip.
- The Foundation strongly recommends you wear masks, especially in situations where it is difficult to keep a safe distance.
